Aerolimp

Transportable line

For room controlled environmental shock treatments without people

Equipment

Ozone Generator	● Included
Environmental ozone sensor	● Included
Air turbine	● Included
Ozone destroyer	● Included
PLC with touch screen	● Included
Stainless steel cover with wheels	● Included

OZONE PRODUCTION

80 g O₃/h

FLOW

RANK
1000 m³/h

	MODEL	AEROLIMP 80
Max. Ozone production		80 g O ₃ /h
Turbine flow		1000 m ³ /h
Power supply		220 V - 50 Hz
Consumption		1200 W
Ø Ozone outlet		200 mm tube
Weight		50 kg
Packaged weight		60 kg
A x B x C packaged size		75 x 95 x 75 cm
Reference code		FAEROLIMP.0001

Description :

Latest generation portable Ozone aero cannon, powerful, compact and robust. Its air turbine and its ozonator with silent crown discharge technology, cooled by air, provides an air flow with constant high Ozone, used to carry out disinfection and odour elimination treatments in rooms.

It includes an environmental Ozone meter and a touch screen, which allows the user to select the desired ozonization level in each treatment. It also shows the ozone values reached by graphic.

What is used for ?

To disinfect and eliminate odours in rooms, by means of ozone shock treatment. A powerful and fast ozone treatment, which eliminates odours, viruses, bacteria, fungi and molds in hotel rooms, nursing homes, hospitals, interiors of cars, caravans, motorhomes, trains, planes. Also used in warehouses, food industries, veterinarians, gyms, nurseries, etc ...

Includes :
