

FOLI

FOLI

Mulch foil lifting machine

WHAT IS FOLI?

FOLI is machine that lifts foil as well as drip irrigation system hoses.

HOW DOES FOLI WORKS?

Side cutting discs cut soil releasing foil for easier removal.

Cutting disc (additional equipment part) cuts foil on 2 equal parts, facilitating foil removal and gathering.

Foil lift plough digs foil up and lifts foil from the ground.

BENEFITS OF USING

- **Easy to use**
- **Robust construction**
- **Operating with the machine doesn't requires additional workers**
- **Trusted functionality**
- **High work performance**

MACHINE FEATURES

- Fits machines with Cat 1 and 2, 3-Point hook-up
 - Easy regulation of working depth
 - Easy regulation of working width
